FKM HOSE

FKM rubber hose with AISI-304 stainless steel outer braiding

For the transfer of biodiesel, eco-diesel (RME and PME), and all types of fuel. Good performance in contact with most chemical agents. Suitable for use in high-temperature environments. Virtually immune to aging from sunlight, ozone, or weather conditions. Excellent for containing gases and preventing fuel evaporation.

Temperature: -20 °C +200 °C (with sporadic peaks at +250 / 280 °C)

Inch	Internal diameter (mm).	External diameter (mm).	Working Pressure bar	Bursting pressure bar	Radius of Curvature mm.
5/16"	9.5	14.5	25	100	50
3/8"	12.5	17.5	25	100	60
